

Cancellation Policy

It's always been our contention that your time is valuable. So we have one theory about scheduling--you deserve our undivided attention. For this reason, we don't double-book like other practices, and accept drop-ins only in the event of an emergency.

Late cancellations and failure to show to appointments put strain on our office as we have already dedicated the staff and resources to provide you with treatment.

When we schedule a dental visit, that time is yours. It belongs to you. We understand that sometimes life happens and you may need to change or cancel your appointment. If this is the case, we ask that you please give us 48 hrs notice, so that the time we have reserved for you can be offered to someone else in need of care. Cancellations with less notice, or failure to show at scheduled appointments may result in a \$50 charge to your account.
